## SUMMARY

Second-year Computer Science (AI) student with strong programming skills in C++ and experience working with SQL and MongoDB. Proficient in data structures and algorithmic problem-solving, having solved 250+ DSA problems on LeetCode. Passionate about building scalable software systems and continuously improving problem-solving abilities. Seeking opportunities to contribute to real-world development projects while expanding expertise in software engineering and AI.

## TECHNICAL SKILLS

**Programming Languages:** C++ (Primary)

**Core Concepts:** Data Structures & Algorithms (250+ problems solved on LeetCode)

**Web Development:** HTML, CSS, Tailwind CSS, JavaScript

**Databases:** MySQL

## PROJECTS

**LeetCode Metrics - LeetCode Performance Analytics Tool:** - HTML, CSS, JavaScript

- Built a client-side web application to fetch and analyze LeetCode user statistics via GraphQL API integration.
- Utilized async/await, Fetch API, and custom request headers to handle API communication.
- Designed interactive progress indicators using CSS custom properties for real-time visualization.

**Razorpay Frontend Clone:** HTML, TailwindCSS

- Developed a responsive clone using semantic HTML and Tailwind CSS.
- Engineered complex layouts with Flexbox, CSS Grid, absolute positioning, and responsive breakpoints for multi-device support.
- Integrated custom keyframe animations, SVG-based components, and structured modular sections to replicate production-level UI.

**Typing Speed Test:** -HTML, TailwindCSS, JavaScript

- Developed a responsive typing test web application with real-time character validation, accuracy calculation, and WPM tracking using JavaScript.
- Implemented dynamic text rendering with per-character feedback and controlled timers for both timed and passage modes.
- Built an interactive UI with restart functionality, difficulty switching, and a results screen to display user performance.

## EDUCATION

**GL Bajaj Institute of Technology and Management,**

B. Tech in Computer Science and Artificial Intelligence

**CGPA: 8.73/10** (till 3rd semester)

September 2024 – Present

**Krishna International School**

CBSE Senior Secondary (XII)

**Percentage:** 91.8%

March 2024

## ACHIEVEMENTS

- Solved 250+ DSA problems on LeetCode, covering arrays, strings, linked lists, stacks, queues, and trees.
- Earned 5 ★ C++ (Gold Badge) on HackerRank for strong proficiency in problem-solving and STL usage.
- Consistently strengthening algorithmic thinking through programming practice.
